

# ULTRA-LOK™ RSQ

World's First **Dual-Mode Self Retracting Lifeline**

## Fall Arrest Mode

**Fall Arrest Mode (Assisted Rescue):**  
 A speed sensing brake stops the fall, reduces forces imposed on the user to safe levels of 900 lbs. or less and allows for assisted rescue to take place.

## Rescue Mode

**Automatic Rescue Mode (Self Rescue/Descent):**  
 A speed sensing brake stops the fall just like in fall arrest mode, then instantly a centrifugal brake activates lowering the user at a controlled speed to the next level or ground.

## 3 RESCUE OPTIONS

**Fall Arrest Mode Assisted Rescue by Hand**

**Fall Arrest Mode Assisted Rescue by Pole**

**Automatic Rescue Mode Self Rescue/Descent**
